
Your unique kitchen – tailored to suit you

Combine this modular hob with other modular hobs from Electrolux to build your own tailored mix of cooking methods – choose from gas, induction and radiant.

Product Benefits & Features
Wipe clean instantly

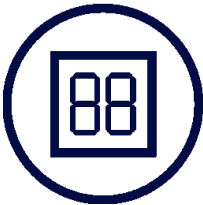

Because the surface around the pans stays cool as you cook, you can get rid of spills as you go along. Nothing gets burnt on, and there's nowhere for dirt to hide. So spend less time cleaning and more time cooking.

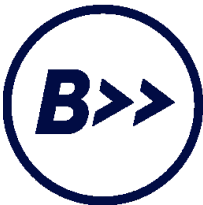

- Hob type: Induction
- Hob with bevelled frame
- Touch-control
- Controls position: Front Middle
- Illuminated controls
- Induction zones with power booster function
- Pot detection
- Left front zone: No, 0W/0mm
- Left rear zone: No, 0W/0mm
- Middle front zone: Induction, 2300/3700W/210mm
- Middle rear zone: Induction, 1400/2500W/145mm
- Right front zone: No, 0W/0mm
- Right rear zone: No, 0W/0mm
- Automatic fast heating up
- Stop and Go function for short interruptions
- Key-lock function
- Child safety lock function
- Automatic safety switch off
- Acoustic signal
- Timer function
- Residual heating indicator: 7 Segments
- Easy installation thanks to snap-in system
- Main colour: Black

Direct access to all your controls - thanks to the on-hob panel

This hob's controls are designed so that you can always access them straight away. Just reach over and make your adjustments.

Boost the heat for instant results

When you need to cook really rapidly, the Booster function is perfect. Touch it for an instant burst of heat to boil water in under 90 seconds* – that's even faster than an electric kettle. It's great for last-minute vegetables and other quick cooking jobs too, like cooking pasta and rice.

Remembers where you left off

Whenever you get interrupted, you can put your cooking on hold with the Pause button. It makes sure nothing burns if you're called away from the kitchen and, conveniently, it remembers the different heats under all your pans. So when you're ready, one touch puts you back exactly where you left off.

A heat zone that only heats up when there is a pan on top

Thanks to its clever induction technology, this hob's heat zones only heat up when there is a pot on top. And as soon as the pan is removed, it deactivates itself.

Product Specification

Product Installation	Built_In	Fastening	Snap in System
Product Typology	Electric_Hob	Gas original	No
Product Classification	Statement	Gas replacement 2	No
Installation	Independent	Gas replacement 3	No
Size	Domino	Gas category	No
