

#### A bigger oven, for more flexibility

Enjoy cooking for a crowd with our new, larger oven. The customisable shelf levels and large tray mean that you can change the space to suit your needs. Whether hosting a party or preparing meals for the week ahead, you can cook more at once.

### Product Benefits & Features

#### Straightforward control – with rotary knobs and countdown function

For simple control, this interface, with its rotary knobs and LED display, gives you direct access to the countdown function and practical cooking modes. When the oven is off, the display shows you the time.

#### Use every inch of space inside – everything will cook evenly

Thanks to the UltraFanPlus heating system with extra-large fan and air-guide design, your dish will cook completely evenly wherever you place it in the oven.
