

As the design and size of the PC-6 corresponds to the commercially available Halogen spotlight, light and sound can be harmoniously integrated. Owing to its wide radiation characteristics the unit is suitable for low-ceilinged rooms with low noise levels. A large area can be evenly radiated with just a few speakers. The unit can be installed without the use of tools. Using spring clips the unit can be quickly installed in a ceiling.

Order no: PC-6WM

Specifications
