SteamCare with FreshScent reduces creases and saves water

Breathe new life into clothing with our SteamCare System with FreshScent. By refreshing your favourite clothes with steam, you can save over 40L of water per cycle, while reducing wrinkles and minimising the need to iron. And for an extra boost of freshness, just add fragrance.

SensiCare System - Customised care in a shorter time

Our SensiCare System weighs each load and automatically adjusts the cycle, so that your clothes are cleaned for just the right amount of time. Preventing overwashing and ensuring items retain their look and feel for longer.

Ready to wear in one hour

Our Non-Stop 60-Minute Programme washes and dries small loads in just one hour for an extremely fast and efficient cycle. So you can have your clothes effortlessly cleaned and cared for when you want them.

Convenience in a single cycle

Our Wash&Dry Programme provides convenient care for your clothing at the push of a button. Choose a single, dry-to dry cycle to clean everything in one streamlined process; or select separate wash and dry cycles for truly flexible care.
