

The complete cooking solution

Different functions allow you to adjust the oven heat to your cooking needs. Use the fan for succulent roasts, the grill for crispy chicken wings and melted cheese, or try out conventional heating for gently baking cakes and bread.

Product Benefits & Features

Serve up a feast

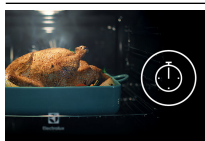

A generous oven capacity makes it easy for you to serve up a feast of delicious, hot dishes at the same time when entertaining. The gas oven helps to ensure everything from juicy roast meats to delicate meringues are cooked quickly and evenly.

- Flame safety device
- Light
- Removable door
- Door glazing
- No. of shelf positions
- Grill
- Timer
- No. of functions

Roast to perfection

Use the rotisserie turnspit to make the perfect roast chicken with a crisp outside and delicious juicy centre.

Leave the timing to us

The convenient built-in timer is the perfect helping hand to keep you on-track when multi-tasking in the kitchen. Set the desired duration and your oven will notify you when it's time to check on your dishes.

No flame, no risk

The flame failure safety device automatically cuts off the gas supply if the flame goes out during cooking. This means you can use your appliance at the lowest power without worrying about the flame extinguishing and leaking gas.

Cool exterior, hot interior

The double-glazed door makes the oven safe and cool to touch on the outside, while the internal reflective glass sheet directs heat back into the oven.

Product Specification

Main colour	Stainless steel	Main material	Stainless steel
Installation type		Capacity (L)	68
Voltage (V)	220-240	Total_grill_wattage_W	55
Country of origin	IT	Product type	Single oven
Dimensions WxDxH in mm	W594 x D569 x H594	Gross product weight (kg)	28.5
Total wattage (W)	70	Width	594
