

Product Benefits & Features

Easily fired up

All it takes to start up this hob and oven is a simple twist of the knob whilst pressing down the knob, so the flame will be sparked.

Keep your pans steady and the heat in the right place

Safe and long lasting, our cast-iron pan supports provide a robust cooking surface with a highly professional appearance.

Better heat distribution for even cooking results

Crisp pastry, evenly cooked pies, well browned joints of meat -- the XXL Fan ensures heat is circulated evenly throughout the oven, meaning consistent results wherever your food has been placed.

Impress with the perfect spit roast, straight out of your oven

This rotating spit is the easiest way to make sure you can serve up the perfect roast -- it's completely automatic, so you don't need to turn it.
